# TESTIMONIALS

As new dental clinic owners, we have received endless support and guidance from the Presidential Team. Special thanks to Michelle and Lars for helping us all the way.

For guiding us with the selection of industry leading equipment, to being there just before open day for the last finishing touches, we can't recommend them enough! 5/5 for the excellent service and kindness!

**Dr Mae Palae Thwe - Smiles Bagan**

I have had amazing service and quality workmanship from the whole service installation and sales team at Presidential!! Today I had a compressor and suction break down and was unable to work, two technicians worked to get me up and running with deification knowledge and great service!! They were amazing and I am very grateful and happy!! It's nice to know as dentists that patients can turn to us and we too can turn to a team like this for excellent care!! Michelle from the sales team is very dedicated and committed to her job and definitely cares!! I totally recommend them to every dentist in Australia !!!

**Dr Nicola Stephen - Burwood Dental Centre**

Morrin Dental has been using Presidential for our Equipment and Maintenance needs from Day one. They have been a strategic partner who has helped us develop new services through technology which have grown the practice both physically and the team as a whole.

They have a wide range of high quality equipment with a knowledgeable sales team, seamless installation with minimal disruption, as well as efficient and responsive after sales service.

I would have no hesitation in recommending Presidential to colleagues and look forward to continuing the relationship into the future.

**Dr Mark Morrin Dental, Newcastle**

Reeves Dental Surgery recently purchased the Enbio Steriliser from Luke at Presidential (for portable use on charity dental work in Papua New Guinea). Luke was fantastic to deal with. He was very prompt in organising a competitive quote, responding to my myriad of emails and queries, often attending to my questions out of business hours. He pops in every so often to make sure we are well looked after. Presidential's service technicians are knowledgeable and lovely to deal with, as well as the admin staff. A very professional group. Highly recommended.

**Francis Pemper - Reeves Dental Surgery, Umina**

Lee and the team at Presidential really looked after us at Spadental. They co-ordinated our new fit out with new A-dec equipment and compressors/suction. I can highly recommend them for equipment supply and service.

**Dr Sean Parsonage, Spa Dental, Sydney CBD**

Excellent service from Luke. Very quick to reply and get our order in before June 30!! Would recommend to any dental practice looking to upgrade chairs and equipment.

**Dr Ra TeMoananui - Supersmile Orthodontist, Canberra**

The **300** is a compact dental chair that's comfortable and built to last, while the **400** combines contemporary styling with robust construction

Buy a 300 or 400 Chair Package\* and

**GET A FREE STOOL SET**

## 500 STOOLS

### Ultimate Comfort and Support

The A-dec 500 Doctor's and Assistant's stools offer a dynamic seating system that conforms and moves with the body. With years of research behind it, the innovative A-dec 500 stool is strategically engineered to help you feel your best, so you can perform at your best.

- Dynamic support.
- Healthy seated posture.
- Easily adjusted.

## FLUSH DOCK

### Specialised Simplicity

The holder keeps handpieces and A-dec syringes in place so you can flush, purge, and follow waterline protocols with your hands free. The syringe pocket is shaped to press and hold the A-dec syringe water button. The handpiece slots fit a wide range of tubing nuts and ends. The removable top makes cleaning simple. The lid provides room for two traditional syringes or one Continental® syringe, plus four handpiece slots when all handpieces, motors, and couplers are removed for flushing.

## ICX RENEW

### Fast and Effective

Fast-acting ICX Renew liquid shock treatment removes odour and foul-tasting bacteria in dental unit waterlines. Just mix the two solutions together into an empty water bottle, run through the lines, and soak overnight.

- Penetrates and removes the buildup of odour and foul-tasting bacteria.
- Blue colour lets you know the solution is hard at work in the waterlines.
- Non-corrosive and gentle on equipment
- Will not corrode or clog waterlines.
- Odourless formula.

**TERMS AND CONDITIONS:** \*Chair package must include Chair, Upholstery, Configured delivery system with A-dec electric motor and tray holder, 500 LED light, 551 assistants' instrumentation with support link and scaler kit. This offer cannot be combined with any other chair promotion. Offer Valid 1st January – 31st March 2026. All Prices Include GST.

Traceability kit includes:  
Consumable Kit  
Label printer  
QR Bar code reader

lisQ

**CODE: PLUS\_Discount LISA**

**SAVE over \$5,000 with a Lisa steriliser package from Presidential!**

The image shows the Lisa steriliser package components and the ioDent app interface. The components include a barcode scanner, a label printer, and several rolls of labels. A large green arrow points from these components to a large green cross symbol, which then points to the Lisa steriliser unit. A green circle on the right contains the text: "FREE Traceability Kit & IoDent Cloud-based services". The Lisa steriliser unit is white with a green base and a small display screen. The ioDent app interface is shown on two smartphones, displaying a list of items and a QR code.

# Vatech EzRay Air Portable

vatech

## ⌚ WEIGHT INNOVATION WITH CNT (CARBON NANO TECHNOLOGY)

The world's first dental application of Carbon Nano Technology.

The EzRay Air Portable is a lightweight portable x-ray device that is designed for easy handling and stable positioning, delivering optimal image quality for your intra-oral x-ray images.

## ☢ DOUBLE SCATTER SHIELD DESIGN FOR OPERATOR SAFETY

### INTERNAL SHIELDING

The internal radiation shielding is perfectly designed to protect the operator from radiation leakage.

### EXTERNAL BACKSCATTER SHIELDING

Exposure to radiation results from the beam interacting with the surface of the patient, causing radiation to bounce off as radiation scatters in different directions. The backscatter shield significantly reduces the amount of radiation being reflected.

## ⌚ LOWER COOLDOWN TIMES, FASTER WORKFLOW

The EzRay Air Portable's unique carbon-nano technology efficiencies, which are not available in traditional x-ray generation methods, means there is a 75% reduction in cool-down time between shots, when compared to leading competitor's devices. This allows users to spend less time waiting for their x-ray to be ready and more time diagnosing and treating the patient.

**ASK US  
FOR BEST  
PACKAGE  
PRICING!**

## ⌚ NO WARMUP TIME

With no initial start-up delay for conventional x-ray sources to warm up, the EzRay Air Portable's Carbon Nano Technology optimizes workflow by allowing for quicker exposure after you initially turn on the device.

# Enbio Pro & Enbio S

enbio®

Enbio sterilisers are up to 6 times smaller and 3 times lighter than a typical class-B / vacuum autoclave. But when it comes to work efficiency, they keep up the pace.

#### Superfast sterilisation

Up to 4 times faster cycle time than the typical autoclave.

#### Perfectly dry pouches in no time

Enbio S sterilises a load of wrapped instruments in just 15 minutes (Enbio Pro – 18 minutes).

#### Emergency sterilisation

In case of emergency, you can sterilise unwrapped instruments for immediate use in just 7 minutes.

#### Simple

Enbio is so simple to install and operate that it takes longer to explain how simple it is.

#### Inaudibly silent

Enbio autoclaves work unbelievably silent. Wherever you use it, nobody will notice it's working.

#### Enbio Magic Filter: forget about water

Imagine a race car covering a long distance on a teaspoon of fuel. Enbio autoclaves are like that. With Enbio Magic Filter as a standard equipment, they can run up to 1000 processes on just 1 litre of demineralised water. No tap or sink required.

#### Enbio S. Speedmaster.

Enbio S is compact to fit even a cramped space. Unbelievably short process times will save your procedure in emergency, or allow sterilisation of the instruments as you go, between patients.

#### Enbio PRO. Small foot. Big space.

Enbio PRO is an ideal solution as a basic workhorse in a small practice. Superfast sterilisation and room to hold most of the instruments, including popular implant casettes.

Enbio Standard

## New Product Release

# u.sense HD

**Resolution: > 27lp/mm**

### Simplicity at every step

From installation to diagnosis, U-Sense HD designed to integrate effortlessly into your daily workflow.

With its USB 2.0 direct connection, U-Sense HD is instantly ready to use—just plug it in and start capturing high-definition images within seconds.

Whether you're upgrading your equipment or setting up a new operatory installation is fast and effortless.

Thanks to TWAIN compatibility, U-SENSE HD integrates smoothly with most dental imaging software on the market.

### The Right Fit, Every Time

U-SENSE HD was designed to adapt—to every patient, every clinical situation, and every workflow.

Its ergonomic shape, lightweight design, and rounded edges ensure easy positioning and greater patient comfort, even in sensitive areas.

With three available sizes—including a new 1.5 format—U-Sense offers the right fit for both pediatric and adult indications, making daily use simpler and more intuitive.

# ACTEON NEWS

N° 15248

Caring People. Improving Lives

2026

WARNING - Breaking news - WARNING

## Stop using competitors' tips with ACTEON® devices

Choose only the ACTEON® Original Tips to get the full performance of your ACTEON® ultrasonic device

Only ACTEON® Original Tips can guarantee optimal performance and safety of use with our ultrasonic devices.

ACTEON®'s liability and warranty of parts and accessories is voided when damages occur due to the use of non ACTEON® Original Tips.

Could seems financially interesting initialy but more costly in the long term:

- 1-Tips need to be changed more often
- 2-Increased treatment time
- 3-Potential damage to the handpiece may require replacement

acteon

J02050 - V2 - 04/2024

## Servotome II A New Impulse In Electrosurgery

### Experience the benefits of electrosurgery

High frequency electrosurge or orthodontics, periodontics and other oral surgery with a single footswitch, a box with 10 electrodes & a conductive bracelet.

#### Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

#### Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

#### Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneouse hemostasis.

## Eurosonic 4D The new dimension of ultrasonic washing

Eurosonic 4D is the most advanced 3.8 L ultrasonic tank in the range. Equipped with an LED-backlit display controller, it is intuitive and user-friendly thanks to the lights indicating the different cycles, times and temperatures.

# Leica M320 D Dental Microscope

## With Integrated 4K Camera

Enjoy better visualisation during surgical and non surgical dental procedures, benefit from increased physical comfort, and show your expertise to peers and patients with astounding 4K images.

Inspired by dentists - With the M320 dental microscope you can achieve better treatment results and optimise outcomes through high precision microdentistry. To help you share your expertise with patients and peers you can record your procedures in impressive 4K image and video quality.

Developed for dentists - The ergonomic microscope design of the M320 enhances your physical comfort and thus increases efficiency in different fields including restorative dentistry, endodontics, prosthodontics and aesthetic dentistry as well as periodontics and implantology.

Not all products or services are approved or offered in every market and approved labeling and instructions may vary between countries.

Call us  
for a  
demonstration

## PHYSICAL COMFORT INCREASES EFFICIENCY

Ensure you are sitting comfortably so that you can work without interruptions for repositioning yourself. Leica Microsystems offers a choice of objective lenses, binocular tubes, and ergonomic accessories that suit your body frame, specialty, and working preference.

### Binocular tube with 45° angle

Work in comfortable standard position with a fixed 45° viewing angle

### ErgoWedge for the 45° binoculars

Enjoy working more ergonomically with a tiltable viewing angle of 5–25°

### Binocular tube for 180° movement

Enhance comfort and flexibility through an even wider range of viewing angles

### ErgoOptic Dent accessory

Extends the reach of the microscope and allows to swivel the optics carrier to any angle

### Ultra-low binoculars for an upright posture

Work in a more compact position with your body and arms closer to the operating field
