Reprocessing devices

Perfectly maintained instruments are longer lasting. Correct cleaning and lubrication are essential to the function and long working life of dental instruments.

NEW

assistina^{TWIN}

Want to reduce your reprocessing time?

The Assistina TWIN performs your instrument maintenance quicker than ever before. Through the innovative oil nebulisation technology, W&H has been able to reduce the maintenance process to a record time of just **10 seconds**.

SIMPLE

No waiting, No Stress

FAST

Oil service in record time – only 10 seconds!

EFFICIENT

Maximum oil service. Minimum oil consumption

PRACTICAL FOR EVERY PRACTICE

Process up to 360 instruments per hour

SAVE

Only 3 cents per handpiece!

Special New Price \$2,999

SAVE \$1,901

assistina

Maintenance at the touch-of-a-button

The maintenance process starts automatically at the touch of a button. After only 35 seconds, the instrument is perfectly maintained.

The automatic rotational lubrication ensures optimum distribution of the oil and that an even film of lubricant is created. Dirt particles are loosened and removed. The lifespan of the instruments is increased significantly whilst service costs are reduced.

- Flushing and lubrication of the internal components with Service Oil through rotation
- Optimum cleaning of the spray water and spray air channels with cleaning fluid
- Flushing through with compressed air

Price \$1,999

SAVE \$731

Great bulk deals on handpieces.

FIGHT PERIODONTAL DISEASE

**20% of Australians
suffer from
periodontal disease.***

**Inform your patients that periodontal
disease infection impacts their
whole body, with potential serious
health implications!**

DETECT ✓

Inflammation caused by
periodontal disease.

DIAGNOSE ✓

Periodontal disease at
all of its stages and
educate your patients.

TREAT ✓

Periodontal disease
at its earliest stages.

SOPRUCARE

Reveal plaque, calculus, and gingival inflammation.

*Australian National Survey of Adult Health (2004–2006) <https://www.aihw.gov.au/reports/dental-oral-health/oral-health-and-dental-care-in-australia-2015/contents/oral-health-in-australia>

A-dec hygienist package

The best come together
to provide the perfect
workflow solution for Hygienists.

Simply build onto your existing
A-dec Hygienist chair or add to
a new Hygienist chair purchase.

SOPROCARE Intraoral Camera

The SOPROCARE concept was developed to assist the dental professional during prophylaxis and periodontal treatment in the dental office. SOPROCARE reveals caries in CARIO mode, as well as new and old dental plaque in PERIO mode. SOPROCARE is the first product on the market to reveal gingival inflammation. In DAYLIGHT mode, SOPROCARE can also be used as a camera, providing all of the necessary tools to perform a complete and time efficient oral examination.

Under Perio mode, it differentiates the colour of tissue and reveals old plaque by a shade of yellow and orange. Increase patient acceptance today and reveal what they can't see under the naked eye.

Images made by Pr. Tassery, Head of the Preventive and Restorative Department, Marseilles Dental School, University AMU, LBN Montpellier I.

DENTAL PLAQUE

The healthy teeth keep their original colour

The old plaque ranges from yellow to orange depending on its mineralization

INFLAMMATION

The healthy gum appears pale pink

A severe gingival inflammation is indicated by bright and voluminous magenta-red areas

Save over \$5,000

Bundle the SoproCare camera with

Newtron Scaler

Prophy
Handpiece
and Airmotor

Monitor Mount and

- **CLEAREST 3D IMAGES ON THE MARKET**
- **LOWEST RADIATION EXPOSURES**
- **EASY TO USE**
- **SMALLEST FOOTPRINT**
- **NO LICENSING FEES!**
- **RELIABLE AFTER-SALES SUPPORT**

Cephalometric radiology

Lateral full skull

Posterior/Anterior

- Due to its patented cinematic and collimation, patient positioning is easier on X-Mind® Trium.
- Install the cephalometric arm on the right or left, depending on the configuration of the office.

Panoramic radiology

Panoramic with improved orthogonality

Maxillary

Whether raw or filtered to optimise the details, panoramic X-Mind Trium images support a fast and easy diagnosis.

3. Treatment Plan

Start your treatment with HD Sopix Sensors and X-Mind Unity x-ray generators.

PSPIX2 – The most versatile and fastest scanner producing digital radiographs in seconds

12
SECONDS

4. Integrate

Complex cases need a 3D perspective. X-Mind Trium delivers 75µm resolution images for the most predictable outcome.
