ICX Renew

Fast-acting ICX Renew liquid shock treatment removes odor and foul-tasting bacteria in dental unit waterlines. Just mix the two solutions together into an empty water bottle, run through the lines, and soak overnight. After completing the shock treatment, flush the lines with water and resume your regular use.

- Penetrates and removes the buildup of odor and foul-tasting bacteria
- Blue color lets you know the solution is hard at work in the waterlines
- Non-corrosive and gentle on equipment
- Will not corrode or clog waterlines
- Odorless formula

Artifacts Reduction Tool

IMAGING

x-mind prime 2

Easy Acquisition Effective Workflow

- X-MIND® prime has been engineered to make your daily operations faster and more efficient.
- Its effortless and lightweight wall mounting solution, allows to quickly install it almost everywhere, ensuring the maximum accessibility in any context, for both standing or sitting patients.
- Its clean and neat user interface with finely designed workflows is intended to fulfill your daily tasks with the minimum number of steps, to take you straight to the result.
- Easy. Effective. Simply X-MIND® prime.

FAQ...

What's the maximum FOV size available on X-MIND Prime Version 2?

The maximum FOV size available on X-MIND Prime 2 is 12x10 cm (hxθ).

What's the highest resolution available on 3D images for X-MIND prime Version 2?

The highest resolution available on 3D images for X-MIND prime 2 is 72.5 µm.

Is it the highest resolution applicable to all the available FOVs?

The highest resolution of 72.5 µm is applicable only on 5x5 FOVs, for all the other 3D acquisition modalities the reference voxel size is 145 µm.

Is the 72.5 µm of voxel size a technical specification hardware or software based?

The voxel size is a technical specification hardware based.

What's new on X-MIND Prime Version 2?

On X-MIND prime 2 we have introduced:

- a new overall pleasant design with improved usability and reliability of the mobile sensor
- a new redesigned user interface improved in usability
- a new 3D panel with an improved resolution of 72.5 µm
- a new filter for metal artifacts compensation improved in performances (SMAR-T) a new 12x10 cm FOV improved in quality.
- a new imaging software AIS 5 improved in usability and capabilities
- a new software CM-Suite developed to significantly simplify the post installation

processes and the device maintenance

Ergonomic and user-friendly design

Reduce operator interventions and increase patient comfort

Stylish and smooth design underlying a cutting-edge technology.

Easy and fast **face-to-face patient positioning**.

Fast installation

X-MIND® prime is ready to install! Delivered completely assembled at your practice, you are all set-up in only one hour.

Ergonomic head positioner with centering references **optimized to improve the accuracy in positioning** and reduce the incidence of movements during scanning in cephalometric mode.

Full accessibility for standing or sitting patient thanks to its zero footprint.

Automatic FOV centering, LED light chin rest recognition.

Meet the Prime Family

X-MIND® prime is available in four models, 2D wall mounted, 3D wall mounted, 2D ceph and 3D ceph, to suit any installation setup and clinical need.

X-MIND® prime 2D ceph
Cephalometric add-on for a full 2D system still encompassing the same philosophy of prime, ideal for pediatric applications.

X-MIND® prime 2D wall mounted
The ACTEON®'s smallest extra-oral 2D imaging solution ever for the maximum accessibility in any context.

X-MIND® prime 3D wall mounted
Cutting-edge CBCT technology enclosed in an essential and elegant style, fitting almost any space, even the narrowest ones.

X-MIND® prime 3D ceph
The most comprehensive all-in-one ACTEON® imaging solution, all you need to successfully handle any patient type in any clinical landscape... always at your fingertips.

xgenus
Vega

xgenus Vega are intraoral digital sensors, available in two different models, that provide versatility, reliability and ease of use in every dental exam of the professional study

- The theoretical resolution of 25 lp/mm of xgenus Vega CMOS detector allows to properly detect any district of patient's mouth. xgenus Vega HD makes one more step in image quality thanks to the use of CsI scintillator.
- The "Multi-layer technology" with fiber optic - scintillator - shock absorption area ensures the highest levels in image quality in a strong structure for a long-lasting performance.
- xgenus Vega and Vega HD come in two different sizes who make them suitable for a wide range of applications: pedodontics, periapical, endodontics and bitewing.
- Two available solutions tailored for your clinical needs.

W1305001	XG VEGA SIZE 1
W1305002	XG VEGA SIZE 2
W1305003	XG VEGA HD SIZE 1
W1305004	XG VEGA HD SIZE 2

SPECIAL INTRODUCTORY OFFER

Purchase XG Vega or XG Vega HD Sensors, Sizes 1 or 2 **15% OFF**

xgenus DC

xgenus & xgenus DC are the latest evolution of the worldwide known de Götzen intraoral generators

- The intraoral generators of the xgenus family pack together the years of experience of degotzen in designing technologically advanced and reliable solution for dental radiology field. The two members of the family, the DC and the AC version, are engineered to guarantee high quality beam and precise control on the exposure times, for the best outcome of any exam.
- The different options available allows you to configure the device tailored on your needs and your preferences, wide selection of arm lengths is available as well as a full set of cone types which allow you set the shape of the beam and the source-to-skin distance, everything ensuring the best experience as always on device positioning during its operation: the arm is light enough to be positioned with one finger!
 - The clean and simple design of the xgenus family generators guarantees a seamless integration of the devices in any environment. The interaction with the unit is outmost simple thanks to high user-friendliness of the control panel equipped with large soft touch buttons and LED lights to always have under control the status of the device.
 - Different configurations available

Vatech EzRay Air Portable

- It all starts with weight innovation
- Double scatter shield in one
- Smart angulation for optimal results
- One dial for all function

WEIGHT INNOVATION: 1.4 KG

EzRay Air Portable Type, a light portable X-ray with 1.4kg, makes stable condition for positioning the device. It satisfies all primary dental diagnostic needs by creating stable and clear images at all times.

ESSENTIAL SAFETY: DOUBLE PROTECTION DESIGN Internal Shielding

The internal radiation shielding is perfectly designed to protect the operator from leakage radiation.

External Backscatter Shielding

The backscatter shield significantly reduces the operator's radiation dose.

Vatech EzRay Air Wall

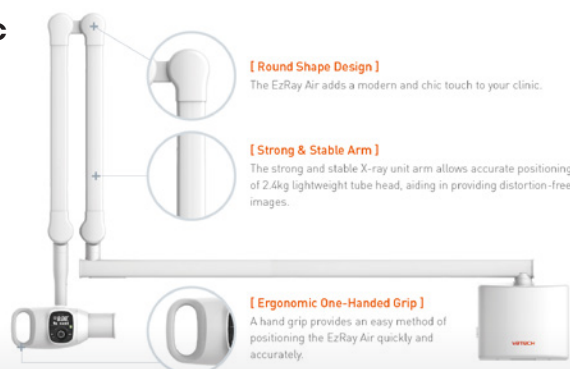

- Smart angulation for optimal results
- Intuitive & convenient operating panel
- One dial for all function
- 2.4kg lightweight tube head for stable, safe use
- Compact design for easy use

SECURE CLEAR IMAGES WITH A 0.4MM FOCAL SPOT

Regardless of which intraoral sensor you use, the EzRay Air minimizes blur and provides additional diagnostic value with a 0.4mm focal spot.

ERGONOMIC DESIGN FOR SAFETY AND EFFICIENCY

Vatech 2D PaX-i

- Superior image quality
- Two dedicated sensors
- Modern compact design

THE ADVANCED IMAGING SOLUTION FOR ACCURATE DENTAL DIAGNOSIS

The PaX-i provides the most precise and high quality panoramic images by combining image processing and accumulated experience in dental imaging from Vatech.

This will increase your diagnostic accuracy for improved treatment planning and patient satisfaction.

Vatech A9

A NEW DIMENSION BEYOND YOUR EXPECTATIONS

The Vatech A9 provides the most precise and high quality panoramic images by combining image processing and accumulated experience in dental imaging from Vatech. This will increase your diagnostic accuracy for improved treatment planning and patient satisfaction.

Vatech 3D Smart Plus

SMART INNOVATION

The innovative FOV of the Smart Plus provides an arch-shaped volume, which shows a wider view of dentition compared to other devices of the same FOV. Normally, a FOV 10x8.5 image shows tooth #8. However, when the tooth is lying on its side, there is a high possibility that the tooth will be cut out of the image. The "arch-shaped volume" eliminates this possibility and shows the hidden dentition area.

RENEW, RECYCLE, REUSE

GO GREEN AND TRADE-IN YOUR HANDPIECES

Going green changes lives. NSK's Going Green campaign collects, refurbishes and repairs used and non-performing handpieces and equipment which are destined for landfill. When you upgrade your handpieces and equipment, you actively participate in our sustainable efforts. Through our recycling and refurbishment programs, we aim to support charitable organizations and benefit underserved communities in third-world countries.

Go beyond.

The new Surgic Pro2

Operability, safety and wireless extensibility: these are the crucial areas where the new Surgic Pro2 makes the difference. The NSK surgical micromotor system represents an extraordinary innovation, designed to give the best device, for the most effective, reliable and comfortable work experience.

There are so many good reasons to choose Surgic Pro2 – the progress, that lets you go beyond.

Improved operability/ usability
more compact motor offers more comfort, less stress.

Safe and sensitive display
easy-clean screen and adjustable smart touch panel, usable when surgical gloves and surgical barrier sheets are in use.

Wireless control pedal
to control irrigation flow selection, program selection rotation direction and rotation speed.

High-resolution colour LED light offers increased visibility, seeing blood and gingiva as if naturally lit.

Silent and smooth
irrigation pump.

High torque accuracy
made possible by the optimised torque calibration system (AHC). Offers maximum safety against exceeding torque during implant placement.

Enhanced decision making, by offering predictability and control on when to load an implant, especially when a shorter treatment time is given – see Osseo 100+.

Bluetooth extensibility to multiple devices - VarioSurg3, Osseo 100+, wireless foot control, iPads.

SURGICAL MOTOR SYSTEM CONNECTING YOU WITH THE FUTURE

Complete Kit contains:

- Control Unit, Motor/Cord, 20:1 contra angle
- Compact new motor: 25% shorter, 9% lighter than current motor – greatly improved balance
- Significantly improved optics (LED)

Link by Bluetooth

- Wireless Foot Control
- iPad
- Variosurg3 (Surgical Piezo) operate with 1 Wireless Foot control
- Osseo100+ confirm ISQ value over a shared interface

▲ **New** Osseo 100+

OSSEOINTEGRATION MONITORING DEVICE

Osseo 100+ measures implant stability and osseointegration to enhance decisions about when to load the implant. This is invaluable when using protocols with shorter treatment times and treating higher risk patients.

The simple steps to measure the ISQ value allow the implant loading period to be planned in advance. The reconstruction of crowns and bridges can be predicted to minimise the risk of failures. Measurements can be made without unnecessary impact since the equipment does not come into physical contact with the implant or abutment.

▲ **New** Zygomatic Handpiece

NSK's new handpiece for Zygomatic & Pterygoid Implants. Its unique angulated shape offers optimal access and visibility.

- 20:1 reduction
- Twist Chuck
- 12 month warranty

BONUS

SERVOTOME

High frequency electrosurge for orthodontics, periodontics and other oral procedures.

Efficient & Secure Surgery

Servotome totally respects biological tissues: the fine and even cut with no side effects allows good-quality healing.

30 Watts is Sufficient

Due to the technology evolution associated with the conductive bracelet, 30 watts is sufficient to perform all dental incision and coagulation procedures providing greater safety.

Experience the benefits of eletrosurgery

Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

FORM 3B+

Ideal for Chairside/Dental Clinic Lab

formlabs 

The Most Trusted Dental 3D Printer

The Form 3B+ provides dental professionals with maximum performance and versatility with an easy workflow. 3D print a wide variety of dental applications in-house with minimal interaction and unrivaled print accuracy and surface finish.

- Fully Validated Workflows for the Practice and the Lab
- Industry Leading Print Quality
- The Easiest 3D Printer to Learn and Use
- Simple, Low-Maintenance Resin Handling
- The Printer for Maximum Performance and Versatility

FORM 3BL

Ideal for Dental/Ortho Labs/Large format printing

The New Standard for High Volume Dental 3D Printing

The Form 3BL is the large format dental 3D printer that raises the bar for dependable high-production dental 3D printing, designed to work day and night with minimal intervention. A build volume of 33.5 × 20 × 30 cm (13.2 × 7.9 × 11.8 in) maximizes throughput for every print job. Print up to 120 models in a day, with just a few printer interactions.

- Maximum Productivity, Minimum Intervention
- A Robust 3D Printing Ecosystem
- Full Arch Orthodontic Model
- Cloud monitoring

Form Wash & Form Cure

The Perfect Finish, Every Time

Produce parts you'll be proud to deliver with a tried and tested, start-to-finish dental 3D printing workflow that's certified biocompatible. All stereolithography 3D prints require rinsing and post-curing to remove uncured resin and achieve peak quality. Our automated solutions make post-processing simple.

Form Auto

Automation Hardware for Your Dental 3D Printer

Form Auto is a hardware extension for the Form 3B/3B+ that automatically removes finished parts from the Build Platform 2 and starts the next print without the need for operator interaction, enabling 24/7 printing with no downtime.

Always available,
always ready, and
always printing.
