"Michelle De Blasis is the rep who we dealt with. She is professional and super efficient.

It made buying our A-dec chair a smooth operation, even with some changes such as refurbishing an existing chair and relocation. To put things into perspectives, a competitor company only got back to us regarding our A-dec chair purchase enquiry a few weeks after our chair (sold by Michelle of Presidential) was installed! Totally happy."

**Dr Cindy Nguyen**

"Incredible service from the very start by Michelle and Presidential Team. Michelle is exceptionally professional and organised and had all our orders in a timely manner. The servicing and installation team led by Lars and Darcy were fantastic at liaising with the builders directly and had everything installed and good to go without any hassle.

Highly recommend!"

**Dr Shrey Surya**

"I have had amazing service and quality workmanship from the whole service installation and sales team at Presidential!!! I had a compressor and suction break down and was unable to work, two technicians worked to get me up and running with dedication, knowledge, and great service!! They were amazing and I am very grateful and happy!! It's nice to know as dentists that patients can turn to us; and we too can turn to a team like this for excellent care!! Michelle from the sales team is very dedicated and committed to her job and definitely cares!! I totally recommend them to every dentist in Australia!!!"

**Dr Nicola Stephen**

"I wholeheartedly recommend Presidential as a dental supplier, and I cannot speak highly enough of Lee's exceptional professionalism, honesty, promptness and patience. Her expertise, dedication and unwavering support have been instrumental. I am grateful for her invaluable assistance and the outstanding service she has provided. Presidential and Lee have undoubtedly exceeded my expectations, and I am confident in their ability to deliver exceptional products and services to all their customers.

Thank you, Presidential, and a special thank you to Lee for your remarkable support!"

**Dr Ben Lee**

"We are using new Lisa VA-B and are very happy with the performance of the sterilizer and the customer service of Luke and Presidential Team."

**Dental Embassy**

"Luke Williams and his team at Presidential are a pleasure to deal with. From purchase to delivery and after sales support their customer service is next to none. I would highly recommend them to anyone looking to purchase equipment for their surgery."

**Dr Gabriel Maratheffis**

"I have been working with Presidential and A-dec for a number of years."

Presidential is always quick to get back to me, provides fantastic pricing and stays in regular contact. Presidential's service is always fantastic - from install to maintenance. My A-dec 500 chairs are completely reliable and provide outstanding comfort for my patients. If you are looking for new equipment contact Presidential and they will look after you!"

**Dr Mehdi Rahimi, Chatswood**

"Our surgery has been involved with many service companies over the years and Presidential has been the stand out from all the companies we have used before. The standard of service, prompt response and excellent sales service from Presidential is unprecedented. Thanks to Presidential Team!"

**Dr Jason Pireh, Kellyville**

# Enbio Pro & Enbio S

enbio®

Enbio sterilisers are up to 6 times smaller and 3 times lighter than a typical class-B / vacuum autoclave. But when it comes to work efficiency, they keep up the pace.

## Superfast sterilisation

Up to 4 times faster cycle time than the typical autoclave.

## Perfectly dry pouches in no time

Enbio S sterilises a load of wrapped instruments in just 15 minutes (Enbio Pro – 18 minutes).

## Emergency sterilisation

In case of emergency, you can sterilise unwrapped instruments for immediate use in just 7 minutes.

## Simple

Enbio is so simple to install and operate that it takes longer to explain how simple it is.

## Inaudibly silent

Enbio autoclaves work unbelievably silent. Wherever you use it, nobody will notice it's working.

## Enbio Magic Filter: forget about water

Imagine a race car covering a long distance on a teaspoon of fuel. Enbio autoclaves are like that. With Enbio Magic Filter as a standard equipment, they can run up to 1000 processes on just 1 litre of demineralised water. No tap or sink required.

## Enbio S. Speedmaster.

Enbio S is compact to fit even a cramped space. Unbelievably short process times will save your procedure in emergency, or allow sterilisation of the instruments as you go, between patients.

## Enbio PRO. Small foot. Big space.

Enbio PRO is an ideal solution as a basic workhorse in a small practice. Superfast sterilisation and room to hold most of the instruments, including popular implant cassettes.

# Vatech EzRay Air Portable

vatech

## WEIGHT INNOVATION WITH CNT (CARBON NANO TECHNOLOGY)

The world's first dental application of Carbon Nano Technology.

The EzRay Air Portable is a lightweight portable x-ray device that is designed for easy handling and stable positioning, delivering optimal image quality for your intra-oral x-ray images.

## DOUBLE SCATTER SHIELD DESIGN FOR OPERATOR SAFETY

### INTERNAL SHIELDING

The internal radiation shielding is perfectly designed to protect the operator from radiation leakage.

### EXTERNAL BACKSCATTER SHIELDING

Exposure to radiation results from the beam interacting with the surface of the patient, causing radiation to bounce off as radiation scatters in different directions. The backscatter shield significantly reduces the amount of radiation being reflected.

## LOWER COOLDOWN TIMES, FASTER WORKFLOW

The EzRay Air Portable's unique carbon-nano technology efficiencies, which are not available in traditional x-ray generation methods, means there is a 75% reduction in cool-down time between shots, when compared to leading competitor's devices. This allows users to spend less time waiting for their x-ray to be ready and more time diagnosing and treating the patient.

## NO WARMUP TIME

With no initial start-up delay for conventional x-ray sources to warm up, the EzRay Air Portable's Carbon Nano Technology optimizes workflow by allowing for quicker exposure after you initially turn on the device.

# x-mind prime 2

## Easy Acquisition Effective Workflow

- X-MIND® prime has been engineered to make your daily operations faster and more efficient.
- Its effortless and lightweight wall mounting solution, allows to quickly install it almost everywhere, ensuring the maximum accessibility in any context, for both standing or sitting patients.
- Its clean and neat user interface with finely designed workflows is intended to fulfill your daily tasks with the minimum number of steps, to take you straight to the result.
- Easy. Effective. Simply X-MIND® prime.

## FAQ...

What's the maximum FOV size available on X-MIND Prime Version 2?

The maximum FOV size available on X-MIND Prime 2 is 12x10 cm (h x Ø).

What's the highest resolution available on 3D images for X-MIND prime Version 2?

The highest resolution available on 3D images for X-MIND prime 2 is 72.5 µm.

Is it the highest resolution applicable to all the available FOVs?

The highest resolution of 72.5 µm is applicable only on 5x5 FOVs, for all the other 3D acquisition modalities the reference voxel size is 145 µm.

Is the 72.5 µm of voxel size a technical specification hardware or software based?

The voxel size is a technical specification hardware based.

## Servotome II A New Impulse In Electrosurgery

**2 YEARS  
WARRANTY**

### Experience the benefits of electrosurgery

#### Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

#### Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

#### Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

## SOFTLY Amalgamator

Softly is very stable, extremely quiet, and very easy to clean and maintain. To guarantee totally safe operation, Softly is deactivated when you open the front cover to access the capsule. Softly is made entirely of injection-molded ABS material.

It complies with all electrical and mechanical safety standards.
