"I just wanted to extend a big thank you to the Presidential Team for completing the five year preventative maintenance service for our Sydney Dental Hospital Simulation Clinic over the past 2 months. The team were an absolute pleasure to arrange/work/co-ordinate with. The communication between Melina and the technical team was very smooth, professional and clear. I just wanted to acknowledge and thank your staff - They were fantastic! Please pass on my thanks (Melina, Luke, Vira, Matt and Jason) my apologies if I missed anyone else that attended."

Eve Wolstencroft

"Michelle De Blasis is the rep who we dealt with. She is professional and super efficient. It made buying our A-dec chair a smooth operation, even with some changes such as refurbishing an existing chair and relocation. To put things into perspectives, a competitor company only got back to us regarding our A-dec chair purchase enquiry a few weeks after our chair (sold by Michelle of Presidential) was installed! Totally happy."

Dr Cindy Nguyen

"I have had amazing service and quality workmanship from the whole service installation and sales team at Presidential!!! I had a compressor and suction break down and was unable to work, two technicians worked to get me up and running with dedication, knowledge, and great service!! They were amazing and I am very grateful and happy!! It's nice to know as dentists that patients can turn to us; and we too can turn to a team like this for excellent care!! Michelle from the sales team is very dedicated and committed to her job and definitely cares!! I totally recommend them to every dentist in Australia!!!"

Dr Nicola Stephen

"Incredible service from the very start by Michelle and Presidential Team. Michelle is exceptionally professional and organised and had all our orders in a timely manner. The servicing and installation team led by Lars and Darcy were fantastic at liaising with the builders directly and had everything installed and good to go without any hassle."

Highly recommend!"

Dr Shrey Surya

"I wholeheartedly recommend Presidential as a dental supplier, and I cannot speak highly enough of Lee's exceptional professionalism, honesty, promptness and patience. Her expertise, dedication and unwavering support have been instrumental. I am grateful for her invaluable assistance and the outstanding service she has provided. Presidential and Lee have undoubtedly exceeded my expectations, and I am confident in their ability to deliver exceptional products and services to all their customers."

Thank you, Presidential, and a special thank you to Lee for your remarkable support!"

Dr Ben Lee

We are opening our first practice over the next few weeks, and we purchased an A-dec chair, auto-clave and plant equipment (+ some extras) from Presidential.

We had a rocky road with the changing covid restrictions, and delays with our fit out, but the team at Presidential were always there to problem solve to help meet our changing needs and deadlines. The dedication and care given to our account (from purchase through to installation) has been unparalleled. We cannot thank them, or recommend Presidential, highly enough.

Dr Peter Bakouris, Carlton NSW

"Luke Williams and his team at Presidential are a pleasure to deal with. From purchase to delivery and after sales support their customer service is next to none. I would highly recommend them to anyone looking to purchase equipment for their surgery."

Dr Gabriel Maratheffis

"I have been working with Presidential and A-dec for a number of years.

Presidential is always quick to get back to me, provides fantastic pricing and stays in regular contact. Presidential's service is always fantastic - from install to maintenance. My A-dec 500 chairs are completely reliable and provide outstanding comfort for my patients. If you are looking for new equipment contact Presidential and they will look after you!"

Dr Mehdi Rahimi, Chatswood

"Our surgery has been involved with many service companies over the years and Presidential has been the stand out from all the companies we have used before. The standard of service, prompt response and excellent sales service from Presidential is unprecedented. Thanks to Presidential Team!"

Dr Jason Pireh, Kellyville

Vatech EzRay Air Portable

vatech

WEIGHT INNOVATION WITH CNT (CARBON NANO TECHNOLOGY)

The world's first dental application of Carbon Nano Technology.
The EzRay Air Portable is a lightweight portable x-ray device that is designed for easy handling and stable positioning, delivering optimal image quality for your intra-oral x-ray images.

DOUBLE SCATTER SHIELD DESIGN FOR OPERATOR SAFETY

INTERNAL SHIELDING

The internal radiation shielding is perfectly designed to protect the operator from radiation leakage.

EXTERNAL BACKSCATTER SHIELDING

Exposure to radiation results from the beam interacting with the surface of the patient, causing radiation to bounce off as radiation scatters in different directions. The backscatter shield significantly reduces the amount of radiation being reflected.

LOWER COOLDOWN TIMES, FASTER WORKFLOW

The EzRay Air Portable's unique carbon-nano technology efficiencies, which are not available in traditional x-ray generation methods, means there is a 75% reduction in cool-down time between shots, when compared to leading competitor's devices. This allows users to spend less time waiting for their x-ray to be ready and more time diagnosing and treating the patient.

NO WARMUP TIME

With no initial start-up delay for conventional x-ray sources to warm up, the EzRay Air Portable's Carbon Nano Technology optimizes workflow by allowing for quicker exposure after you initially turn on the device.

Enbio Pro & Enbio S

enbio®

Enbio sterilisers are up to 6 times smaller and 3 times lighter than a typical class-B / vacuum autoclave. But when it comes to work efficiency, they keep up the pace.

Superfast sterilisation

Up to 4 times faster cycle time than the typical autoclave.

Perfectly dry pouches in no time

Enbio S sterilises a load of wrapped instruments in just 15 minutes (Enbio Pro – 18 minutes).

Emergency sterilisation

In case of emergency, you can sterilise unwrapped instruments for immediate use in just 7 minutes.

Simple

Enbio is so simple to install and operate that it takes longer to explain how simple it is.

Inaudibly silent

Enbio autoclaves work unbelievably silent. Wherever you use it, nobody will notice it's working.

Enbio Magic Filter: forget about water

Imagine a race car covering a long distance on a teaspoon of fuel. Enbio autoclaves are like that. With Enbio Magic Filter as a standard equipment, they can run up to 1000 processes on just 1 litre of demineralised water. No tap or sink required.

Enbio S. Speedmaster.

Enbio S is compact to fit even a cramped space. Unbelievably short process times will save your procedure in emergency, or allow sterilisation of the instruments as you go, between patients.

Enbio PRO. Small foot. Big space.

Enbio PRO is an ideal solution as a basic workhorse in a small practice. Superfast sterilisation and room to hold most of the instruments, including popular implant cassettes.

NEW PRODUCT RELEASE

x-mind optima 3D

The Smartest, The Smallest, The Ultimate.

In today's rapidly evolving field of dentistry, the integration of CBCT and Artificial Intelligence is transforming patient care, enabling dental professionals to make more accurate diagnoses and perform safer procedures.

Embracing this cutting-edge integration is not only elevating the standard of care but also optimizing efficiency and patient communication in modern dental practices.

X-MIND® optima 3D represents the perfect combination of advanced hardware technology, enclosed in a lightweight and compact design and next-generation software, RealGuide™ 5.4, bringing the benefits of Artificial Intelligence into every step of patient care, from a precise diagnosis to more effective treatments and patient communication.

Exceptional clarity.

At the heart of the X-MIND® optima 3D is **state-of-the-art detector technology**, which guarantees exceptional image clarity and outstanding anatomical coverage. Its **comprehensive range of Fields of View (FOV)**, from 5x5 to 17x12 cm (Ø x H), makes it suitable for a **wide range of dental procedures**, from general dentistry to orthodontics and maxillofacial surgery, while increasing tolerance for patient positioning and reducing the risk of marginal artifacts.

EXTRAORDINARY CLARITY

Get the most out of quality with the brand-new **ClearIQ** filter

90kV

OUTSTANDING VERSATILITY

From 5x5 to 17x12, a tailored solution for every clinical need

TOP-LEVEL PERFORMANCE

Enhanced image depth with the new kV output range 60-90

5x5 cm FOV

- Improves the **detection of root canals**, particularly in case of abnormal root canal shapes

8.5x5 cm FOV

- Useful for **implant surgery** and in **general dentistry** as a low dose exam as limited to a single jaw

8.5x9 cm FOV

- Useful for **complex implant surgery** as well as left or right TMJ diagnosis

12x10 cm FOV

- Suitable for most **oral surgery cases** including multiple implant surgery

17x12 cm FOV

New

- Represents the perfect solution for **complex orthognathic cases**, **zygomatic implant planning** and **orthodontic surgery**

Servotome II A New Impulse In Electrosurgery

2 YEARS WARRANTY

Experience the benefits of eletrosurgery

High frequency electrosurge or orthodontics, periodontics and other oral surgery with a single footswitch, a box with 10 electrodes & a conductive bracelet.

Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

NEUTRON ULTRASONICS

NEUTRON® technology, a guarantee of efficacy and safety. The perfectly-controlled vibrations and high-quality tips bring to treatments more preservation, efficacy and comfort.

Plus the widest range of tips on the market (80 different tips) with exclusive designs, alloys and coatings for clinical versatility. Exclusive tips in Pure Titanium for implant cleaning.

Leica M320 D Dental Microscope

With Integrated 4K Camera

Enjoy better visualisation during surgical and non surgical dental procedures, benefit from increased physical comfort, and show your expertise to peers and patients with astounding 4K images.

Inspired by dentists - With the M320 dental microscope you can achieve better treatment results and optimise outcomes through high precision microdentistry. To help you share your expertise with patients and peers you can record your procedures in impressive 4K image and video quality.

Developed for dentists - The ergonomic microscope design of the M320 enhances your physical comfort and thus increases efficiency in different fields including restorative dentistry, endodontics, prosthodontics and aesthetic dentistry as well as periodontics and implantology.

Not all products or services are approved or offered in every market and approved labeling and instructions may vary between countries.

PHYSICAL COMFORT INCREASES EFFICIENCY

Ensure you are sitting comfortably so that you can work without interruptions for repositioning yourself. Leica Microsystems offers a choice of objective lenses, binocular tubes, and ergonomic accessories that suit your body frame, specialty, and working preference.

Binocular tube with 45° angle

Work in comfortable standard position with a fixed 45° viewing angle

ErgoWedge for the 45° binoculars

Enjoy working more ergonomically with a tiltable viewing angle of 5–25°

Binocular tube for 180° movement

Enhance comfort and flexibility through an even wider range of viewing angles

ErgonOptic Dent accessory

Extends the reach of the microscope and allows to swivel the optics carrier to any angle

Ultra-low binoculars for an upright posture

Work in a more compact position with your body and arms closer to the operating field
