Michelle De Blasis
0422 391 596
VIC/TAS/QLD

As new dental clinic owners, we have received endless support and guidance from the Presidential Team. Special thanks to Michelle and Lars for helping us all the way.

For guiding us with the selection of industry leading equipment, to being there just before open day for the last finishing touches, we can't recommend them enough! 5/5 for the excellent service and kindness!

Dr Mae Palae Thwe - Smiles Bagan

I have had amazing service and quality workmanship from the whole service installation and sales team at Presidential!! Today I had a compressor and suction break down and was unable to work, two technicians worked to get me up and running with defication knowledge and great service!! They were amazing and I am very grateful and happy!! It's nice to know as dentists that patients can turn to us and we too can turn to a team like this for excellent care!! Michelle from the sales team is very dedicated and committed to her job and definitely cares!! I totally recommend them to every dentist in Australia !!!

Dr Nicola Stephen - Burwood Dental Centre

Morrin Dental has been using Presidential for our Equipment and Maintenance needs from Day one. They have been a strategic partner who has helped us develop new services through technology which have grown the practice both physically and the team as a whole.

They have a wide range of high quality equipment with a knowledgeable sales team, seamless installation with minimal disruption, as well as efficient and responsive after sales service.

I would have no hesitation in recommending Presidential to colleagues and look forward to continuing the relationship into the future.

Dr Mark Morrin Dental, Newcastle

Reeves Dental Surgery recently purchased the Enbio Steriliser from Luke at Presidential (for portable use on charity dental work in Papua New Guinea). Luke was fantastic to deal with. He was very prompt in organising a competitive quote, responding to my myriad of emails and queries, often attending to my questions out of business hours. He pops in every so often to make sure we are well looked after. Presidential's service technicians are knowledgeable and lovely to deal with, as well as the admin staff. A very professional group. Highly recommended.

Francis Pemper - Reeves Dental Surgery, Umina

Lee and the team at Presidential really looked after us at Spadental. They co-ordinated our new fit out with new A-dec equipment and compressors/suction. I can highly recommend them for equipment supply and service.

Dr Sean Parsonage, Spa Dental, Sydney CBD

Excellent service from Luke. Very quick to reply and get our order in before June 30!! Would recommend to any dental practice looking to upgrade chairs and equipment.

Dr Ra TeMoananui - Supersmile Orthodontist, Canberra

500 STOOLS

Ultimate Comfort and Support

The A-dec 500 Doctor's and Assistant's stools offer a dynamic seating system that conforms and moves with the body. With years of research behind it, the innovative A-dec 500 stool is strategically engineered to help you feel your best, so you can perform at your best.

- Dynamic support.
- Healthy seated posture.
- Easily adjusted.

FLUSH DOCK

Specialised Simplicity

The holder keeps handpieces and A-dec syringes in place so you can flush, purge, and follow waterline protocols with your hands free. The syringe pocket is shaped to press and hold the A-dec syringe water button. The handpiece slots fit a wide range of tubing nuts and ends. The removable top makes cleaning simple. The lid provides room for two traditional syringes or one Continental® syringe, plus four handpiece slots when all handpieces, motors, and couplers are removed for flushing.

ICX RENEW

Fast and Effective

Fast-acting ICX Renew liquid shock treatment removes odour and foul-tasting bacteria in dental unit waterlines. Just mix the two solutions together into an empty water bottle, run through the lines, and soak overnight.

- Penetrates and removes the buildup of odour and foul-tasting bacteria.
- Blue colour lets you know the solution is hard at work in the waterlines.
- Non-corrosive and gentle on equipment
- Will not corrode or clog waterlines.
- Odourless formula.

PIEZOTOME

CUBE

Ris|Kontrol[®] your 'must have' for safe, aseptic procedures

METAL TIPS

It is impossible to clean the inside of reusable tips adequately due to the presence of biofilm.⁽¹⁾

(1,2) Data on file

"With regard to cleaning and sterilization, disposable tips were found to be more acceptable in clinical use than metal tips."⁽¹⁾

Save time & money in your daily basis practice

- Single-use
- Avoid cleaning and sterilization steps

Ensure your clinical protection 20 times less risk means more safety and serenity on a daily basis, for safe care and greater patient satisfaction.

Protect your patient Single-use = reduced risk of direct or cross-contamination

- Minimise the spread of viruses

Expasyl Exact paste

Expasyl[™] Exact paste provides excellent benefits with little risks. Its viscosity has been carefully calculated to open the sulcus effectively without damaging the epithelial attachment. Your procedure is both safe and effective.

- Expasyl[™] facilitates access to the preparation limits and emergence profile for perfect impressions
- The compound opens the sulcus and dries it (blood, saliva and fluids) completely
- Cost-effective = no waste of material
- Works with composite applicator gun

Servotome II A New Impulse In Electrosurgery

2 YEARS WARRANTY

Experience the benefits of eletrosurgery

High frequency electrosurge or orthodontics, periodontics and other oral surgery with a single footswitch, a box with 10 electrodes & a conductive bracelet.

Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

MINILED SUPERCHARGED

Wavelength: 420 - 480 nm

Power: 2,000mW/cm²

Li-Ion battery - Handpieces: anodized aluminium

ACTEON NEWS

N° 15248

Caring People. Improving Lives

2026

WARNING - Breaking news - WARNING

Stop using competitors' tips with ACTEON® devices

Choose only the ACTEON® Original Tips to get the full performance of your ACTEON® ultrasonic device

Only ACTEON® Original Tips can guarantee optimal performance and safety of use with our ultrasonic devices.

ACTEON®'s liability and warranty of parts and accessories is voided when damages occur due to the use of non ACTEON® Original Tips.

Could seem financially interesting initially but more costly in the long term:

- 1-Tips need to be changed more often
- 2-Increased treatment time
- 3-Potential damage to the handpiece may require replacement

Get Instant TMJ visualisation with Australia's first CBCT with built-in AI segmentation!

We matched 4-in-1 versatility with true AI segmentation

Vatech EzRay Air Portable

vatech

WEIGHT INNOVATION WITH CNT (CARBON NANO TECHNOLOGY)

The world's first dental application of Carbon Nano Technology. The EzRay Air Portable is a lightweight portable x-ray device that is designed for easy handling and stable positioning, delivering optimal image quality for your intra-oral x-ray images.

DOUBLE SCATTER SHIELD DESIGN FOR OPERATOR SAFETY

INTERNAL SHIELDING

The internal radiation shielding is perfectly designed to protect the operator from radiation leakage.

EXTERNAL BACKSCATTER SHIELDING

Exposure to radiation results from the beam interacting with the surface of the patient, causing radiation to bounce off as radiation scatters in different directions. The backscatter shield significantly reduces the amount of radiation being reflected.

ASK US FOR BEST PACKAGE PRICING!

LOWER COOLDOWN TIMES, FASTER WORKFLOW

The EzRay Air Portable's unique carbon-nano technology efficiencies, which are not available in traditional x-ray generation methods, means there is a 75% reduction in cool-down time between shots, when compared to leading competitor's devices. This allows users to spend less time waiting for their x-ray to be ready and more time diagnosing and treating the patient.

NO WARMUP TIME

With no initial start-up delay for conventional x-ray sources to warm up, the EzRay Air Portable's Carbon Nano Technology optimizes workflow by allowing for quicker exposure after you initially turn on the device.

Leica M320 D Dental Microscope

Call us for a demonstration

With Integrated 4K Camera

Enjoy better visualisation during surgical and non surgical dental procedures, benefit from increased physical comfort, and show your expertise to peers and patients with astounding 4K images.

Inspired by dentists - With the M320 dental microscope you can achieve better treatment results and optimise outcomes through high precision microdentistry. To help you share your expertise with patients and peers you can record your procedures in impressive 4K image and video quality.

Developed for dentists - The ergonomic microscope design of the M320 enhances your physical comfort and thus increases efficiency in different fields including restorative dentistry, endodontics, prosthodontics and aesthetic dentistry as well as periodontics and implantology.

Not all products or services are approved or offered in every market and approved labeling and instructions may vary between countries.

PHYSICAL COMFORT INCREASES EFFICIENCY

Ensure you are sitting comfortably so that you can work without interruptions for repositioning yourself. Leica Microsystems offers a choice of objective lenses, binocular tubes, and ergonomic accessories that suit your body frame, specialty, and working preference.

Binocular tube with 45° angle

Work in comfortable standard position with a fixed 45° viewing angle

ErgoWedge for the 45° binoculars

Enjoy working more ergonomically with a tiltable viewing angle of 5–25°

Binocular tube for 180° movement

Enhance comfort and flexibility through an even wider range of viewing angles

ErgonOptic Dent accessory

Extends the reach of the microscope and allows to swivel the optics carrier to any angle

Ultra-low binoculars for an upright posture

Work in a more compact position with your body and arms closer to the operating field

Enbio Pro & Enbio S

enbio®

Enbio sterilisers are up to 6 times smaller and 3 times lighter than a typical class-B / vacuum autoclave. But when it comes to work efficiency, they keep up the pace.

Superfast sterilisation

Up to 4 times faster cycle time than the typical autoclave.

Perfectly dry pouches in no time

Enbio S sterilises a load of wrapped instruments in just 15 minutes (Enbio Pro – 18 minutes).

Emergency sterilisation

In case of emergency, you can sterilise unwrapped instruments for immediate use in just 7 minutes.

Simple

Enbio is so simple to install and operate that it takes longer to explain how simple it is.

Inaudibly silent

Enbio autoclaves work unbelievably silent. Wherever you use it, nobody will notice it's working.

Enbio Magic Filter: forget about water

Imagine a race car covering a long distance on a teaspoon of fuel. Enbio autoclaves are like that. With Enbio Magic Filter as a standard equipment, they can run up to 1000 processes on just 1 litre of demineralised water. No tap or sink required.

Enbio S. Speedmaster.

Enbio S is compact to fit even a cramped space. Unbelievably short process times will save your procedure in emergency, or allow sterilisation of the instruments as you go, between patients.

Enbio PRO. Small foot. Big space.

Enbio PRO is an ideal solution as a basic workhorse in a small practice. Superfast sterilisation and room to hold most of the instruments, including popular implant cassettes.

SPECIAL PRICING!!

Enbio Standard **\$4,500** **SAVE \$524.56!**
